MCCORMICK&SCHMICK'S

railblazing has been the business of the **Jet Propulsion Laboratory** since it was established by the California Institute of Technology in the 1930's. They created America's first satellite, "Explorer 1," sent the first robotic craft to the moon and all across the solar system. On this exciting day trip, you'll have a chance to go behind the scenes to see rocket scientists at work at one of our country's premier space labs! This fascinating day begins with an elegant 3-course lunch in Pasadena at McCormick & Schmick's Restaurant before heading off to JPL for the afternoon. Your 2-1/2 hour guided tour of **Jet Propulsion Laboratory** begins with a media presentation entitled "Welcome to Outer Space," providing an overview of the Lab's activities and accomplishments. From there, you'll embark on a walking tour that takes you to the von Karman Visitor Center, the Space Flight Operations Facility, and the Spacecraft Assembly Facility.

Please note that JPL requires that all U.S. citizens, 18 years of age or older, present official, government issued photo identification (driver's license or passport) before being allowed entry. All non-U.S. Citizens 18 years of age or older must present a passport or resident visa (green card) before being allowed entry. Individuals without proper identification will not be admitted to the Laboratory.

\$84 per person

Please complete a reservation form,
make check or money order payable to
"IRVINE SENIOR TRAVELERS" and deposit in the
Lakeview Senior Center Travel Club mailbox,
or mail to: Lakeview Senior Center
20 Lake Road, Irvine, CA 92604
